GIFT TOKENS

Bulbs make a very suitable present where other articles fail. We supply Gift Tokens to any value desired and they are in the form of an attractive card to enable recipients to select Bulbs from our Catalog to the specified value.

On receipt of remittance at our Hamilton Office the Token can be sent direct to the recipient together with a copy of our current Catalog, if so required.

*Heiloo, Holland, January 1953.
our eighty-third year*

We have much pleasure in presenting you our 1953 Spring list and we do so with the respectful request that it may have your kind perusal. It is our pleasant duty to thank our many customers for their liberal and loyal patronage, we have been favored with last year and for the numerous letters of appreciation and reports we have received.

In response to the many requests and to make our list more complete, we offer in this publication a wide range of the best Dahlia varieties. The selection of the varieties in the different sections is being done with utmost care and we guarantee them to be the best available for the purpose you want them.

In addition to our previous list we have added 12 Gladioli varieties of the finest and most valuable introductions of last year, which we trust will be greeted as a 'welcome' by all who want something real special for the exhibition-table or for the garden.

We never had such a beautiful stock of big, healthy and clean Gladioli-bulbs as we grew this season, so you may expect your much appreciated orders to be filled with super-bulbs, the quality which gave our firm the position, gained among so many other bulb merchants.

One year has now gone by since we established our Hamilton-Office, from which point we are now executing your orders directly. We are happy to be able to report that everything proved up to expectations and worked out to better and more efficient facilities to our customers. We trust we have now definitely mastered all difficulties and removed all obstacles, which always accompany such elaborate measures.

In conclusion may we ask for a continuation of your patronage and please send your instructions early, in order to enable us to ship the bulbs at the right time for planting and to avoid possible disappointment.

Newest Gladiolus Introductions

We herewith introduce a number of Gladioli varieties which in our opinion belonged to the top-ranks of the showtable during the previous season. The selection is being done with utmost care and after due consideration for substance, poise, color-value and size of the flowers.

Blue Giant (1), A. M. Haarlem 1952, this glorious Gladiolus may be regarded as an excellent improvement on the better varieties in the blues, a very attractive novelty in its deep blue color, producing an enormous spike with 10 florets open at a time. In every respect ideal as a garden plant and show flower (See illustration). **\$ 2.00 each; 3 for \$ 5.00**

Grand National (2), a giant among Gladioli and an ideal plant in every respect, the color is vivid-pink with white mark in throat. A novelty of recent introduction and a real sensation at our shows on account of its wide expanding florets and stately dignity not possessed by any other variety, producing an enormous spike with 8 florets out at once (See illustration). **\$ 2.00 each; 3 for \$ 5.00**

Insurpassable (1), A.M. Haarlem 1952, producing an enormous spike, with 7 to 8 beautiful flowers of a lovely purple-red out at a time. An impressive and magnificent plant with a perfectly straight spike being a sample of perfection and texture. **\$ 2.00 each; 3 for \$ 5.00**

Marconi (2), A.M. Haarlem 1952, an exceptional beautiful and distinct Gladiolus, a wonderful color of dark bordeaux-red with a velvety sheen, 8 to 10 florets open at once, evenly placed on the tall strong stem. A splendid show flower of outstanding quality. **\$ 2.00 each; 3 for \$ 5.00**

Mary Housley (2), A.M. Haarlem 1952, exceedingly large spike of perfect formation, producing a straight strong spike with 8 to 10 florets out at once. A lovely creamy-white novelty with a large scarlet-red blotch on lower petals. **\$ 2.00 each; 3 for \$ 5.00**

Mignon (2), A.M., B.G.S. 1952, a very noble flower of exceptional texture and refined beauty; the wonderful color is of a soft cattleya-pink with a light carmine marking on lower petals, one of the newer varieties of the better class, producing a grand spike of 8 to 10 florets out at a time. **\$ 2.00 each; 3 for \$ 5.00**

Pride of Holland (2), A.M. Haarlem 1952, one of the outstanding beauties of the season, a very deep-red novelty, rich in color and of rare charm, one of the best Gladioli yet produced. A glorious introduction with a long straight spike and 7 to 9 florets open at a time. A grand exhibition variety (See illustration). **\$ 2.00 each; 3 for \$ 5.00**

Rose Emely (2), a delightful Gladiolus of a soft salmon-pink color with a particular charm, undoubtedly one of the outstanding novelties of the season with a particular charm. A stately variety of commanding poise, ideal in shape and texture, producing a spike with 8 to 10 florets open at a time. **\$ 2.00 each; 3 for \$ 5.00**

Salman's Sensation (2), A.M. Haarlem 1952, a real sensation in size and its deep pansyblue color, producing an enormous spike with 10 to 12 florets out at a time. An exquisite novelty of great beauty, an exhibition variety of great merit and unusual appearance. Rated A (Excellent) in U.S.A. 1952. **\$ 2.00 each; 3 for \$ 5.00**

Scarlet Leader (1), a superb new introduction of an intense scarlet-red throughout and of a brilliancy which is unique amongst Gladioli. It is unquestionably one of the best in its color and necessary to see the actual bloom to appreciate the delicacy of its outline. It produces 8 to 10 nicely formed florets out at one time, producing a spike of uncommon beauty (See illustration). **\$ 2.50 each; 3 for \$ 6.00**

Turkana (1), A.M. Haarlem 1951, F.C.C. Haarlem 1952, very outstanding in color; deep velvet brownish-red, with white pencilling on lower petals, a novelty of a perfect carriage and noble form. The large open florets are nicely placed on a strong stem, of which there are 8 to 10 out at once (See illustration). **\$ 1.50 each; 3 for \$ 4.00**

Washington (1), A.M. Haarlem 1952, very tall and impressive exhibition variety of a pure apple-blossom pink color. Flowers are of an excellent substance, perfectly placed on the strong stem; exceptionally long spike measuring 24 in. from the first bloom to top. A real giant, producing a truss of 10 to 12 florets open at once (See illustration). **\$ 2.00 each; 3 for \$ 5.00**

DE JAGER's Gold Medal

Large flowering Gladiolus

The Gladiolus are now greatly favored flowers in the United States of America and need no lengthy description. The improved strain of these magnificent flowers produces enormous spikes of very large and strikingly colored blooms of enchanting beauty. They have a very commanding appearance in borders, in groups among shrubs where they remain in bloom for a considerable time, while they are also greatly praised as cut flowers for bouquets and vases.

We draw special attention to our magnificent collection of Novelties and outstanding varieties of recent introduction. Many have been tested at Squire Valleevue Test Gardens at Cleveland and by the West Virginian Gladioli Society Committee and we recorded where possible the results of these important trials. The assortments offered in this catalog hold promise of many interesting surprises.

Culture: plant your Gladioli 3 to 4 inches deep and 5 to 6 inches apart in a well drained and good garden soil from the beginning of March at intervals until the middle of May, in order to have flowers in succession from July until early autumn. Do not add fresh manure. Gladioli like a sunny position and it is advisable to change the location of your Glad-plantings as often as possible.

The prices quoted are for top-size bulbs.

Royal Dutch Amaryllis

(Hippeastrum)

The Amaryllis produces huge lily-like flowers and with their unique beauty and grace they give immense pleasure and satisfaction. The three or four funnel-shaped florets are placed on the top of a tall solid stalk and grow about eight to ten inches wide at mouth. This genus has several qualities combined and their shades are most exquisite and lovely.

The Amaryllis can be had quite easily in bloom when placed in a warm spot in the living-room with normal indoor temperature. Remember, the base of the bulb must be kept warm to stimulate the development of the roots.

Choice seedlings mixture, these are bound to give entire satisfaction on account of its large blooms of breath taking beauty, the shades being delightful. They deserve a much larger popularity and to encourage their cultivation, they are offered at a special price.

Superb Begonias (Tuberous Rooted)

(Shade-loving)

This Genus deserves attention on account of its great value for planting in shady positions of the garden. From early July and onwards, these so often lost spots will be brightened by the Tuberous Begonias with their huge flowers of magnificent bright and pastel colors.

Culture: The best method is to start them in a cold frame. Plant in rich soil. Good drainage is essential and water cautiously until plants have shown considerable growth, then increase supply. When a little hardened off and when night-frosts are no longer expected, they should be planted out in the garden. Begonias can be planted either single or in beds, one foot apart.

DAHLIAS

Dahlias are the royal representatives of the summer season and they are known all over the world as decorative garden plants. They have shown a remarkable increase in public favor in recent years, because so many new and better varieties have been raised. Rich tints in every design of color and strong stems make them invaluable for cutting as well as for garden purposes.

We are able to offer the following list of very choice and rare Dahlias, which should be of special interest to the real connoisseur and fanciers. The roots offered are all top sized and can be planted from the 1st of April until the end of May. They are very easy to grow and do not need any special treatment although they want a sunny position in the garden and some bone-meal is recommended.

Lilies

All High Quality Dutch Grown Bulbs

Of all the classes of plants capable of being cultivated outdoors, the Lily stands pre-eminent for beauty, grace and color for many years, when left undisturbed.

Culture: Lilies must not be allowed to dry out, but should be planted immediately on arrival at a depth of three times the height of the bulb in a well drained, light loamy soil. No Lilies will thrive in full shade. After the bulbs have set, they should be covered with one inch of soil, on top of which another layer of composted old cow manure should find its place. The first season after planting Lilies do not flower profusely, but once established, they increase in richness and display. Cutting down the dead stems in autumn is essential for good results the following year and add a fresh top-dressing in early spring.

New Introductions

We have pleasure in offering to our clients this season a number of outstanding novelties, raised in Holland which are all awarded with an A.M. of the Dutch Lily Soc. Haarlem.
